

Pit Meeting Agenda (after every match)

- Driver, Operator and Coach describe what happened in the match.
- Scouts describe what happened in the match.
- Check robot for damage (kicker zips, bands wheels, etc.)
- Discussion of possible action plans
- Head Mentor decides action plan and work priority
- Only those actions will be taken, other work may take place with approval after the work plan for that pit cycle is complete
- Repair work to be **inspected** by the Head Mentor upon completion.
- Code updates must be **completely tested** before the robot leaves the pit area.
