

# Proposed Programming Products Structure

## Diagram Key

↓  
“From” code includes  
“to” code

⋯↓  
“From” code depends  
on “to” code

## Recommended Programming Team Organization

### **Integration Team**

Oversees overall competition code  
Integrates into main robot project  
Coordinates with control team  
Communicates requirements

**Co-Leads:** \_\_\_\_\_  
Other team members: \_\_\_\_\_

*Integration co-leads will seek advice and guidance from the control team mentors (Scott & Gary).*

*All programming team co-leads and members will seek guidance from the integration co-leads as well as the programming mentor (Julie).*

### **Drive Train Team**

Develops and tests drive train code

**Co-Leads:** \_\_\_\_\_  
Other team members: \_\_\_\_\_

### **Autonomous Code Team**

Develops and tests autonomous code

**Co-Leads:** \_\_\_\_\_  
Other team members: \_\_\_\_\_

### **Why co-leads?**

*So there is a better chance that a lead student will be available for each team during most of the meetings.*

### **Game-Specific Code Team**

Develops and tests game-specific code, teleop-only as well as auto & teleop

**Co-Leads:** \_\_\_\_\_  
Other team members: \_\_\_\_\_

### **Dashboard Team**

Develops and tests dashboard code

**Co-Leads:** \_\_\_\_\_  
Other team members: \_\_\_\_\_
